

Patient Guide to a good hair-washing technique

How to get the best results from your shampoo

To get the best results from your shampoo follow these guidelines:

- Wet hair thoroughly with warm water
- Apply the shampoo then massage shampoo into hair and scalp
- Remove excess lather from hair with hands. Removing as much lather as possible is important as the lather holds the dirt and dead scale. If you rinse without removing the foam, the dead scale falls back onto the scalp and white debris will be visible once the hair is dry.
- Rinse with warm water
- Repeat application
- Remove as much lather as possible
- Finally rinse thoroughly, preferably under warm running water

1. Wet the hair and scalp with water.

2. Apply shampoo -

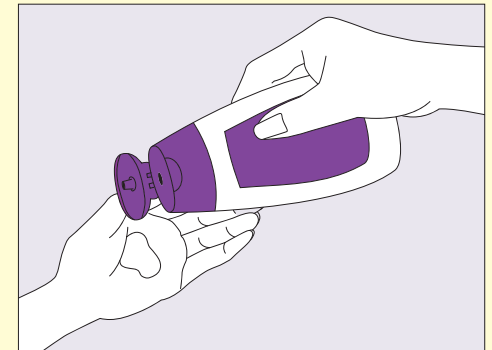

3. - to the hair and scalp and massage thoroughly with the fingertips.

4. Remove the excess lather from the hair with your hands, -

5. - and then rinse with warm water.

6. Repeat the application -

7. - and massage to produce a rich lather.

8. Remove as much lather as possible with the hands.

9. Finally rinse thoroughly, preferably under warm running water.
